

CONTAINER TRACKING

EZC-800-3W

CONTAINER

DEVICE DESCRIPTION

The **EZC-800C-3W** is our fleet tracking device to be utilized for all non-roll-off vehicles not needing to manage container inventory. It is the same device as our EZC-800-3W-RF without the RFID reader.

TARGET MARKETS

Waste Management, Scrap Metal, Roofing, Construction Verticals, or any other business that requires the use and transportation of "roll-off" containers.

KEY FEATURES/BENEFITS

- Vehicle tracking data populates the same UI (user interface) as RF Reader device/solution
- Reports tracking data every 30 seconds when the truck is moving
- Internal cellular and GPS satellite antennas reduce installation time, and supports a covert installation
- Includes required power cable (Note: No cable is required for OBDII vehicles)
- Improve operational efficiencies and employee productivity by providing location, speed, heading, stopping, and mileage reporting
- Plug-N-Play device configuration with no needed wire splicing or connectivity

CONTAINER TRACKING

EZC-800-3W

CONTAINER

DEVICE SPECIFICATIONS

Size: 3.47" x 1.85" x 1"

Operating Temp Range: -40C - +80C

Power Consumption:

When Tracking: 200 mAh

When Sleeping: 40 mAh

Voltage: 6V-32V

Module Certification: FCC,
PTCRB,IC

DEVICE SOFTWARE HIGHLIGHTS

- Web based; providing access to your fleet and container information limited only by your access to the internet including a mobile viewer application.
- Monitors idling to help reduce fuel costs and unnecessary wear on your vehicle
- Unlimited number of users (no additional software license fees or charges)
- Track maintenance schedules based upon real time mileage information
- Provides the ability to create customized Geofence and receive data relative to the entering and exiting and time spent within each customized Geofence
- Provides 24 months of historical tracking data on the reporting suite. Visually, you have access to 6 months data via our mapping tab
